

Installing the eps2-341 printer on Microsoft Windows XP

By Kenan Vilic, s001451, © 2003

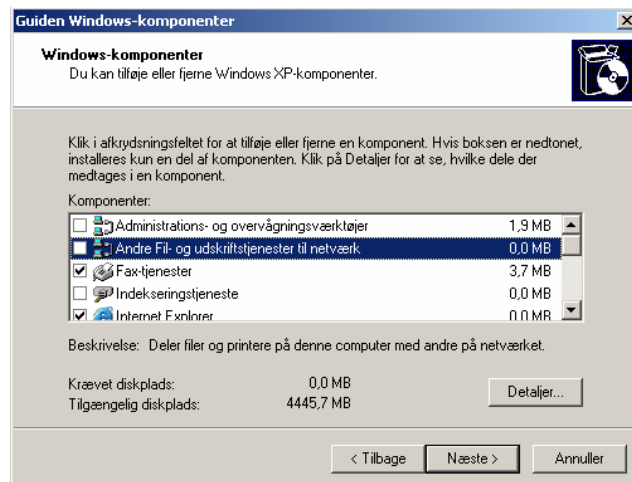

Installing the printer is done in three steps:

1. Installing Print Services for Unix
2. Authorizing at www.wireless.dtu.dk
3. Installing the printer

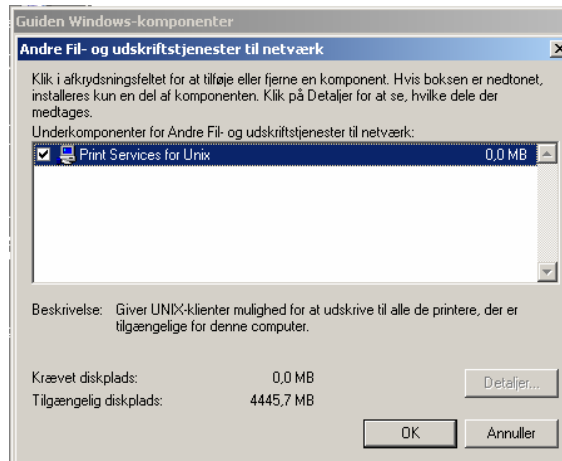

Installing Print Services for Unix

1. Control Panel → Add/Remove Programs

2. Choose “Add/Remove Windows Components” and select “Other Network File and Print Services” then click on “Details”.

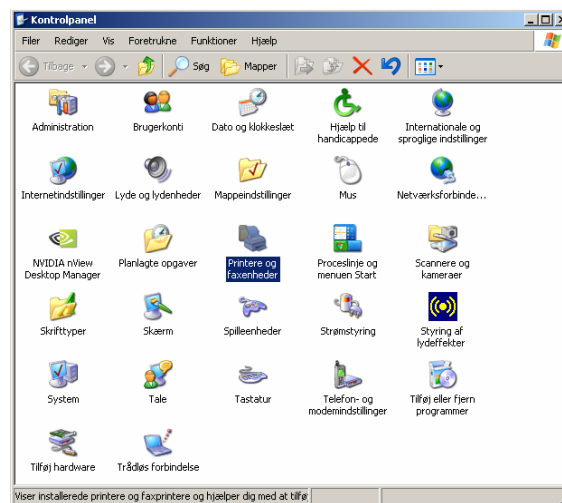

3. By clicking on details the screen above opens and you have to check Print Services for Unix. After pressing the OK button you return to the last screen and have to press “Next” to install the services.

Authorizing at <http://www.wireless.dtu.dk>

In order to be able to print and install the printer you have to authorize on:
<http://www.wireless.dtu.dk>

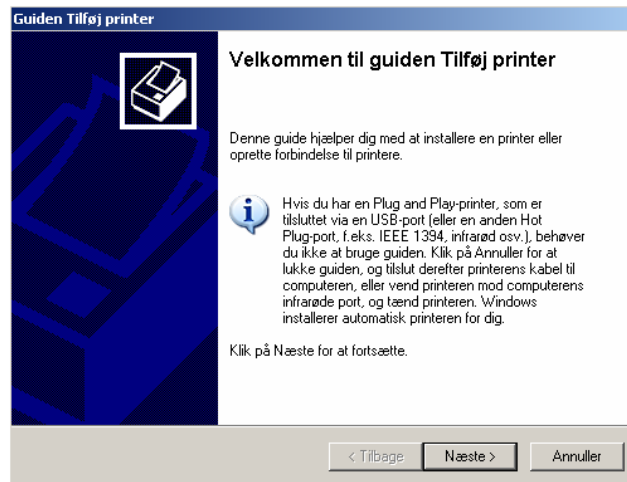

Installing the printer

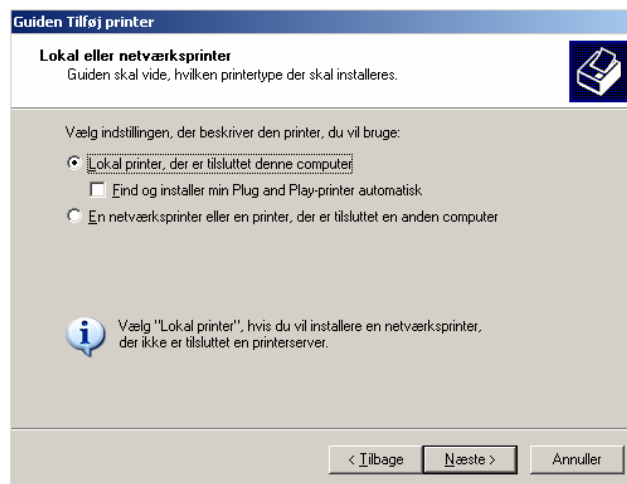

4. In Control Panel chose Printer / Fax

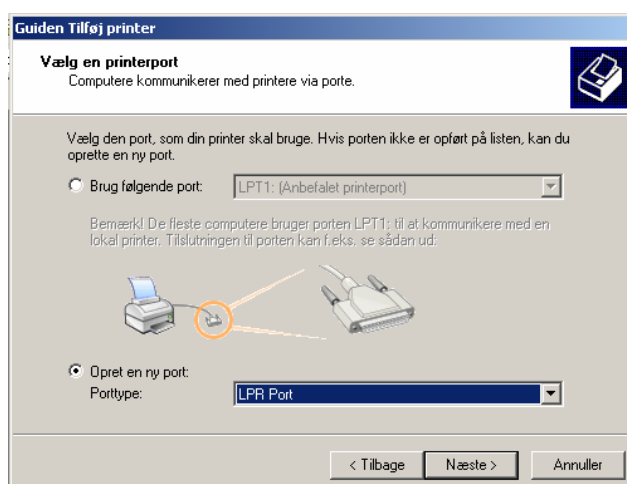

5. Add Printer

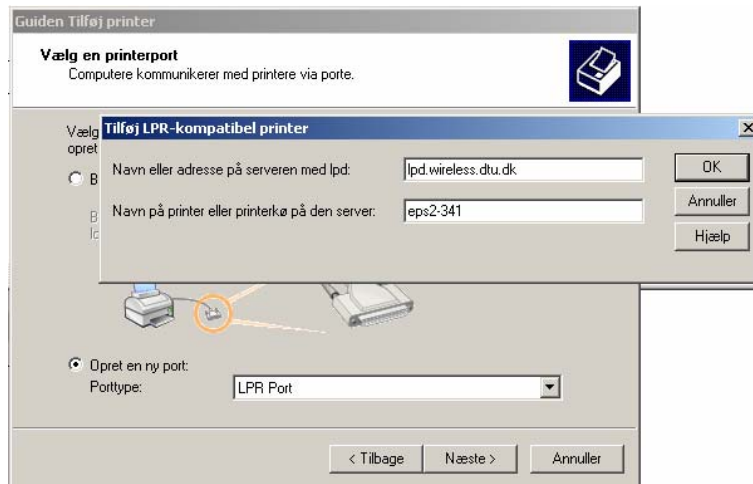

6. Next.

7. Remove mark at “Find and Install my Plug & Play printer automatically” → Next

8. Choose create a new port → LPR Port → Next

9. Write

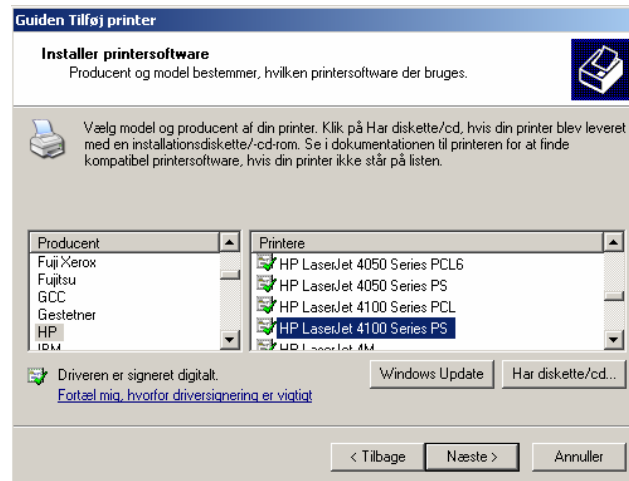

Server name:

lpd.wireless.dtu.dk

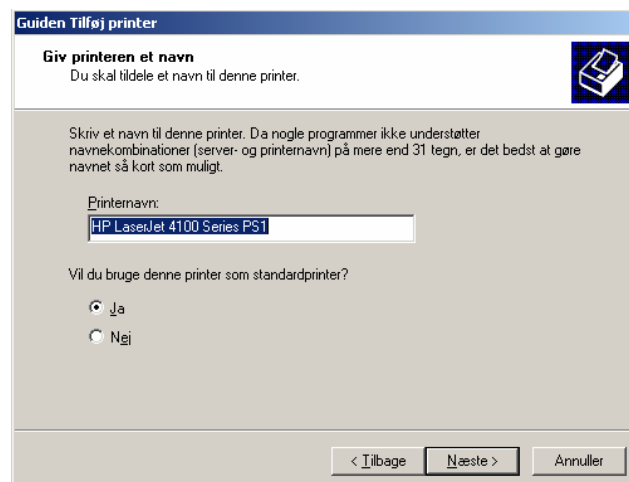

Printer queue:

eps2-341

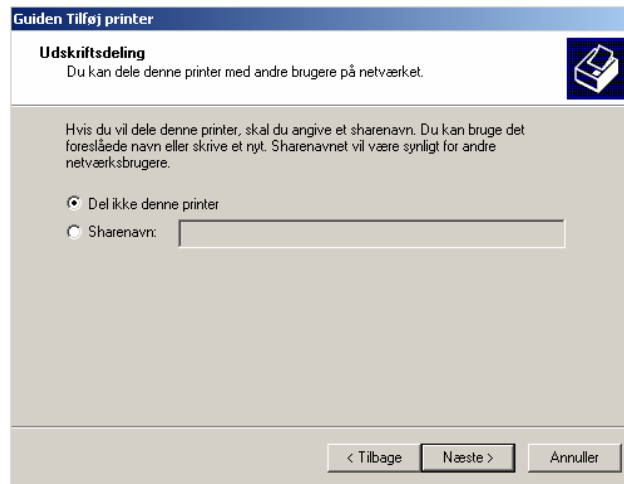

→ OK

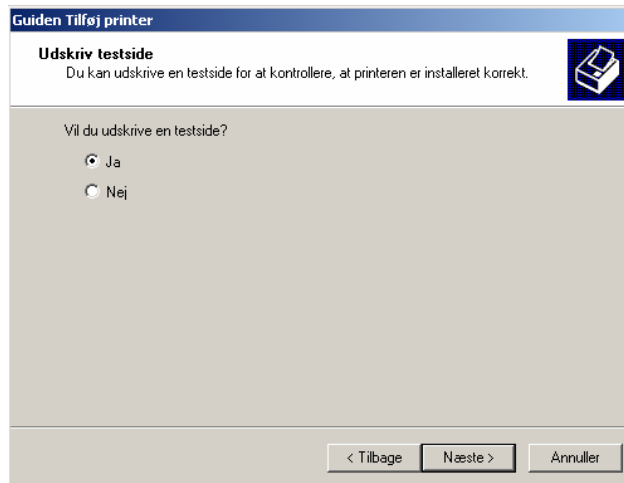

10. For the printer driver choose HP LaserJet 4100 Series PS →Next

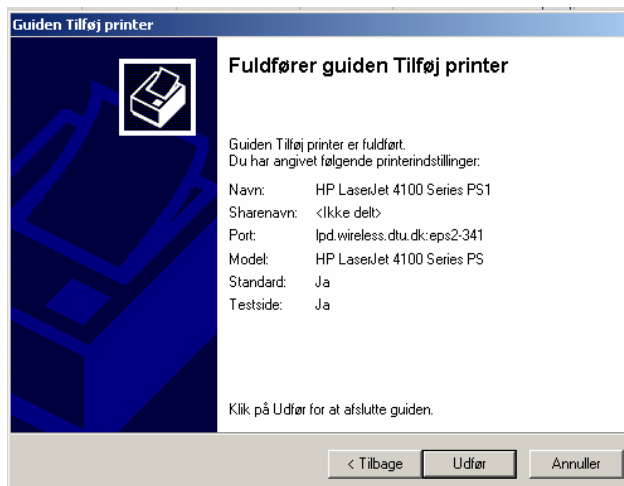

11. Next

12. Next

13. Next

That is all, and now the printer should work properly.
